AIR STATION BULLETIN 5210.2

From: Commanding Officer, Marine Corps Air Station New River
To: Distribution List

Subj: 2022 ANNUAL AUDIT OF MARINE CORPS AIR STATION NEW RIVER
ESSENTIAL RECORDS

Ref: (a) ASO 5210.2B

Encl: (1) Essential Records Inventory 2022

1. Purpose. Marine Corps Air Station (MCAS) New River's Essential Records Program operates under policies, plans, and procedures to identify, use, and protect Essential Records to meet operational responsibilities under emergency or disaster conditions.

2. Background. Essential Records are those identified for emergency functions and those that preserve the rights and interests of Marine Corps personnel. Essential Records must be current, complete, accessible, usable, and adequately protected in order to assist the organization in restoring and/or sustaining near-normal operations during and after a natural disaster, emergency, or attack. This is a program element of MCAS New River's emergency management function.

3. Action

a. Essential Records include all plans, policies, financial documents, directives, appointment letters, delegations of authority, organizational charts, mission and function statements, books, papers, maps, photographs, machine readable materials, databases, the Continuity of Operations Program, and other documentary materials, regardless of physical form or characteristics.

DISTRIBUTION STATEMENT A: Approved for public release;
distribution is unlimited.

b. Essential Records may be in paper form, microform, magnetic tapes, disks, and etcetera. Essential records maintained and eventually stored in other than paper form to support access are to be available at the Alternate Headquarters Site (AHS) or alternate Emergency Operations Center (EOC).

c. A copy of the software program and the guides, passwords, and other information required to use the records must accompany them to the designated AHS or alternate EOC; equipment must be readily accessible and in working condition at all times in the event of an emergency.

d. MCAS New River departments and subordinate commands are responsible for updating the Essential Records Inventory with the following as shown in enclosure (1):

(1) An inventory of Essential Records identified by each MCAS New River department and subordinate command;

(2) A list of equipment, telecommunications, and computer software and programs needed to access electronic records;

(3) Paper copies, compact disks, external hard drives, websites, share drive access mappings, to support the inventory of the Essential Records.

4. Reserve Applicability. This Bulletin is applicable to Marine Corps Air Station New River.

5. Cancellation Contingency. This Bulletin is cancelled upon submission of the next Air Station Bulletin 5210.

D. ROZEK
By direction
